

Day 9 (19-02-2026)

1. Basic Middleware Example

```
const express = require("express");
const app = express();

app.use((req, res, next) => {
  console.log("Middleware executed");
  next();
});

app.get("/", (req, res) => {
  res.send("Home Page");
});

app.listen(3000, () => {
  console.log("Server running on port 3000");
});
```

2. Logger Middleware

```
const express = require("express");
const app = express();

function logger(req, res, next){
  console.log("Request received:", req.url);
  next();
}

app.use(logger);

app.get("/", (req, res) => {
  res.send("Welcome to Express Middleware Example");
});

app.listen(3000);
```

3. Middleware for Request Time

```
const express = require("express");
const app = express();

app.use((req, res, next) => {
  console.log("Time:", new Date());
  next();
});
```

```
app.get("/", (req, res) => {  
  res.send("Middleware Demo");  
});
```

```
app.listen(3000);
```
